

Career Opportunity

Permanent • full-time • based in Québec

PRO KONTROL is the largest wholesaler in electrical, electronics and pneumatic controls for commercial systems in Canada. We sell products and **customized solutions** to solve **Regulation problems in the HVAC** industry. PRO KONTROL's goal is to always give the best-in-class quality service. We are committed to keep a large selection of diversified products and accessories in inventory and to build a business relationship based on confidence and the achievement of common goals. We are currently looking for a dynamic candidate to fill the following position:

Assembly Technician & Technical Support

The Assembly and Technical Support Technician performs the assembly and mounting of control panel for projects in the HVAC/Controls field. He or she is responsible for preparing the equipment, both the parts required for assembly and the equipment required by the customer on site. Reporting directly to the Quebec City Branch Manager, the person will be supported to develop the skills and technical expertise to eventually program Proton products and provide technical support.

Main tasks and responsibilities:

- Analyze drawings and electrical diagrams
- Prepare the necessary materials, tools and equipment for assembly and mounting
- Perform the control panel mounting (installation, drilling, assembly, electrical filing, etc.)
- Mount the VAV boxes according to the specifications on drawings
- Ensure quality control on products before delivery to the customer
- Perform the programming, test sequence and final adjustment phase for Proton systems
- Assist in receiving/shipping as required

Requirements

- New graduates from College degree in building systems, automation, electronics or robotics or Professional Degree in Electricity or HVAC combined with a few years or relevant experience
- Ability to read and understand electrical diagrams
- Basic knowledge of electricity
- Bilingual
- Good knowledge of the current office software (Windows, Word, Excel, etc.)

Competencies

- Good Execution Speed
- Initiative
- Judgment
- Demonstrates desire and learning ability
- Strong team player
- Good manual dexterity
- Versatility
- Planning and organizing skills

You're part of the solution! We invite interested candidates to apply by submitting their resume to: resume@prokontrol.com

We offer a **competitive salary range** and a **full insurance plan**. **Parking is available** at all our branches along with **complimentary hot beverages**.

Pro Kontrol offers all its employees **personalized training** and a **pleasant working environment**. Loyalty, integrity and respect are part of the company's values. Working at Pro Kontrol is like being with family; afterwork happy-hours, BBQs and other festivities are regularly organized.
