

Class Overview:

During the 5-day Niagara 4 Technical Certification Program students will achieve a basic level of technical expertise to effectively and efficiently design, engineer and program projects using the Niagara 4 Platform. Students who pass the exam on the final day of the class will receive a Certificate of Achievement from Tridium which is recognized globally testifying to their ability. A timed practical exam will be given on the Friday and students will receive their certification test scores within 14 days via e-mail.

Details:

Once your payment is made and your seat in the class is confirmed you will be sent a confirmation email with instruction on how to download the Niagara 4 Workbench as well as a demo license for class purposes. If you already have a licensed version of Niagara 4 workbench feel free to skip those steps. You will also be sent instructions on how to create an account on TridiumUniversity.com

Pre-Requisites:

Each student is required to have a Windows 7/8/10 based laptop running a licensed copy of the most current version of Niagara 4 Workbench 4.7.xx. You **must** also have Administrator privileges on your laptop. You must have an internet browser and a recent version of java and be able to connect to the internet without restriction. You must also have access to your Firewall configurations.

Meals:

Lunch and coffee breaks will be served for all-day training sessions. If you have special dietary needs, please inform the Training Department prior to attending the class.
